FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many
Lands Far Away From
Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Appennines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

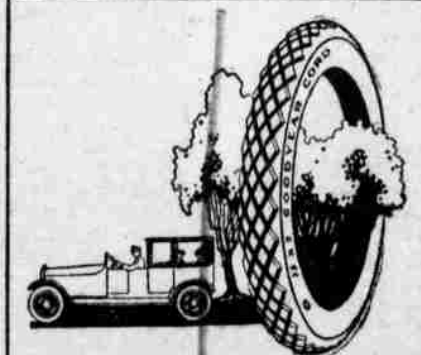

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.

leader and made a very interesting talk. Upon the resignation of Miss Myrtle Parks Miss Ruby Greer was elected president. Mr. Clements of Buchanan, is the guest of his son, Herbert Clements. Mrs. R. S. McCain, Sr., is spending this week with her son and his wife, Mr. and Mrs. Clay McCain of near town. Mr. and Mrs. Chas. Pullen and Lilson have returned from a visit in Mayfield, Ky. Mr. and Mrs. Boyd Matthews and Miss Minnie Milam were in Paris Saturday. Miss Maggie Milam and Malcolm Milam were in Jackson a few days last week. Mr. and Mrs. Jim Gross and Mr. and Mrs. Will Dunn of Paris were here Thursday. Mrs. G. L. Grable spent the latter part of this week with her daughter, Mrs. Claud Bushart of Roulton. Miss Susilee Lankford and Noel Stroup were in McLenoreville Sunday. The 32nd birthday was celebrated with a fishing trip to Phelps Levee. Lunch was carried and everyone had an enjoyable time. Those who went are Mr. and Mrs. R. S. McCain, Sr., Mr. and Mrs. Forrest Hardy, Mr. and Mrs. Clay McCain, Mr. and Mrs. Will McCain, Mrs. Mary McCain, Mrs. Reuben Dillahunty, Mr. and Mrs. Cleveland Dunn, Gus and Sidney McCain.

FLIES SHOULD BE
FOUGHT PERSISTENTLY

When one considers the sources from which house flies come and the disease producing germs they may harbor on and in their bodies, one is impressed with the fact that they ought not to be allowed to live in a kitchen or dining room one minute longer than is absolutely necessary to kill them. When these dangerous and annoying insects once gain access to the living room of a home they should be fought persistently and with any or all of the effective agents available, say agents of the Division of Extension, University of Tennessee. Two effective agencies are given below:

Hellebore—The maggots of flies may be killed by treating the manure in which they are found with either powdered hellebore or borax, preferably the former. One-half pound of the hellebore is added to 10 gallons of water and after stirring, is allowed to stand 24 hours. This amount of stock solution, applied over the surface with a simple sprinkling pot, will treat 8 bushels

Low-Cost Mileage

There is no economy in buying so-called bargains in tires offered at sensationally cheap prices, when a well-made tire delivers mileage at a considerably lower cost per mile. Add the time and trouble occasioned by frequent replacements and it is apparent why tire users seeking real mileage economy, are not attracted to cheaply priced tires.

The popularity of the Goodyear Tires, Tubes and Accessories, we sell, is based on the fact that they consistently deliver exceptional mileage at low cost.

Our Service Station is the place for you to come for low-cost mileage.

(10 cubic feet) of manure. Buhach or pyrethrum—A powder known as pyrethrum, Persian insect powder or Buhach, is sold for killing of all kinds of household insects. Buhach is a California product and

is more likely to be fresh than the imported product. There is no more satisfactory way of ridding a kitchen of house flies than by the use of this powder. At night all the doors and windows of the kitchen should

be closed; fresh powder should be sprinkled over the stove, on the window ledges, tables, and in the air. In the morning flies will be found lying dead or stupified. They may then be swept up and burned.

The Riding Comfort of the Nash Six Equaled Only By Higher Priced Cars

One quality that impresses you with the fact that the Nash Six is the greatest value in its price field is its exceptional riding comfort. Low hung and nicely balanced upon its staunch chassis, this roomy car has unusually long springs, and its broad, restful, deeply cushioned seats are thickly upholstered.

Compare this quality of the Nash Six with that of other cars costing from \$100 to \$600 more and you will have one reason why, from the time it was first introduced, this comfortable automobile has been a sales leader.

All Nash models, both open and closed, have cord tires as standard equipment.

Leach-Diggs Motor Sales Company NASH SIX

Rare Values in Cord Tires for Small Cars

The remarkable values now being offered in Goodyear Tires and Tubes are most impressively illustrated in our clincher type 30x3½-inch Goodyear Cord Tire. Like all other Goodyear Tires, it is now being made larger, heavier and stronger, with thicker tread and stouter construction. It is a big, powerful cord tire, with all the cord tire's advantages—identical in quality with the Goodyear Cord Tires of larger size, preferred on the world's finest cars. You can buy it today from your Goodyear Service Station Dealer for only
